RE: Mid-Term Permit Review, Genwal Coal Company, Crandal Canyon Mine,
Act/015/032, Folder #2, Emery County, Utah

Dear Mr. Haddock:

We have reviewed Genwal's Mine Plan for the midterm review and have found it to be essentially unchanged from the one dated February 10, 1988. The Mine Plan should be brought up to date to reflect changes which have occurred in the last two and half years. The revised plan should include: New surface facilities such as the stacking tube/loadout facility, areas mined and new areas planned for mining, the underground coal right-of-way, the powerline, the Forest Service Road Use Permit renewal, and all other actions approved by the Forest Service and/or the Division.

These updates need to be made before the plan can be considered complete.

Sincerely,

George A. Morris
